legal battle involved in the trial of Harry F. Sinclair, New York oil magnate, on the charge of having declined to answer certain questions of a senatorial committee. Justice Hitz adjourned court at noon until Monday morning, at which time the climax to the legal battle will be close at hand.

The first major development will come when Justice Hitz rules as to whether or not the questions asked Sinclair were pertinent to the matter which the Senate committee had under inquiry on March 22, 1924. Interwoven in this question will be the court's problem of deciding what part, if any, of the evidence offered by the defense yesterday in the absence of the jury should be communicated to the jury should be communicated to the jury should be communicated to the jury to return a verdict of not guilty. In announcing this at the close of yesterday's session, George P. The District of Columbia has the worst child labor laws in the country. Fay L. Bentley, director of school attendance and work permits, stated before the joint meeting of the industrial committee of the Y. W. C. A. and the Women's Trade Union league at the Y. W. C. A., 613 E street northwest, last night.

The lack of penalties under the existing law, which has stood since 1908 with only a slight amendment, is largely responsible for the present condition, she stated. Another cause is the great number of exceptions to the rule. Selma M. Borchardt, president of the Women's Trade Union league, presided.

The Near East Relief association made disbursements in its oversea work for child refugees totaling \$3,378,-000, according to the annual report submitted to Congress.

The total number of children cared for during the year was 35,000, of whom 17,000 were in its 68 orphanage schools, and 18,000 were outplaced in homes or industries. The medical department operated 45 hospitals and clinics at which 1,660,000 treatments were given. The object of this work is to train the children for citizenship, it is stated.

Girl's Dream of Diploma Award Realized in Death

What Marie Cecelia Reidy, 14 years old, cherished most in life, was awarded to her yesterday in death—her certificate of graduation from St. Dominic's school. As ahe slept that last long peaceful sleep in a flower-embanked casket in her home, 900 Four-and-shalf street southwest, last night, the prized certificate was clutched in one of her hands.

Today at 8 o'clock a requiem mass will be sung for the repose of her soul in St. Dominic's church, Sixth and E streets southwest. The entire school will attend this last farewell. Then burial services will be held in Mount Olivet cemetery and the gri will be lowered into the grave, still clutching that cherished parchment.

Ohio Operators Say They Will Shut Down Should Agree-

Indianapolis, Ind., March 10 (By A. a strike of workers.

While it has been stated a failure
to negotiate a contract would result
in the United Mine Workers calling
out only the 185,000 members of the
central fields, this is only tentative.
The policy committee of the United
Mine Workers, meeting the latter part
of this month, may reaffirm that policy
or may vote to call out all of the 380,000 soft ceal workers in the 21 states 000 soft coal workers in the 21 states and two Canadian provinces of the

and two Canadian provinces of the union's jurisdiction

That districts outside the central field have been authorized to make separate temporary agreements with operators is considered likely as a result of a report from Johnstown, Pa., that negotiations along that line are in effect in district No. 2. Johnstown representatives contend such an agreement must continue present wages and must terminate if a central field pact is signed. pact is signed.

Officials Decline Comment.

Officials of the mine workers her Officials of the mine workers here would not comment upon the Johnstown report nor affirm that a policy of independent agreements was agreed upon at the Miami policy committee meeting last month which followed the unsuccessful wage conference with operators.

The union's policy, should an agree ment not be reached before April ? ment not be reached before April 1, will be determined at the policy committee meeting to be held here. Philadelphia or Washington, a spokesman said. Prediction of what course the miners will take would be premature, and without any basis in fact, he declared

and without any basis in fact, he declared.

Operators of Indiana, Illinois, Ohio and western Pennsylvania—the central field—are as reticent as the miners regarding their plans after March 31, when the present wage scale expires. At the Miami conference they insisted upon a sliding scale, adjustable to meet the competition of the nonunion fields of West Virginia, Virginia, Tennessee and Kentucky. Should the miners call out only the central field workers it is their belief that business will be stimulated in the other fields, more miners will be put to work and much of the loss of production in the idle fields will be taken up by them. The central field will be taken up by them. The central field contributes 200,000,000 tons of coal annually. The other fields employ more men than the central, but their combined production is no more than half of its output. Under the stimulant of increased demand it is believed these fields can deliver 150,000,000 tons annually.

GRAPE GROWERS AID DRYS, STAYTON SAYS

Greatest Beneficiaries of Prohibition Next to Bootleggers, He Charges.

Growers of wine grapes in California are giving their whole-hearted support to the Antisaloon league, it was charged last night by Capt. W. H. Stayton, of the Association Against the Prohibitor, Americana

of the Association Against the Prohibition Amendment.

Next to the bootlegger, Capt. Stayton said, the California grape growers
have been the chief beneficiaries of
prohibition. Quoting government agures, he showed that the acreage in
wine grapes has increased from 97,000
acres in 1919 to 157,000 acres in 1926.
The grapes, he said, are being shipped
as far as the Atlantic coast for winemaking purposes and are selling for
\$50 to \$60 a ton, whereas \$10 a ton was
a good price before prohibition.

"Under these ideal conditions," said
Stayton, "the California wine grape
growers are naturally well pleased with
Volsteadism and Wheelerism."

The longest case on record of sustaining life of a patient ill of Landry's disease, by artificial respiration, was that of a Swedish girl in St. Paul, Minn., who lived 41 days. That case was reported in the Philadelphia Medical Journal December 3, 1898, by Dr. Charles Lyman Greene.

The girl, who was 20 years old, was taken to the hospital on September 30, 1898. On the fifth day of her Ill-ness paralysis of the respiration by the manual method, as in the case of Frick, was resorted to immediately and continued until November 12, when she died.

The disease was first described by Landry, a French physician, in 1859, and, according to Dr. Morris Fishbein, editor of the Journal of the American Medical association, the cause of it is model as association, the cause of it is model as a former member of the Medical association, the cause of it is not known.

Scientists Can't Lay Bricks, Coolidge Told PROBLEM IN GETTING

Protest against the low wages of fered by the navy yard for bricklayers was made yesterday to Presi-dent Coolidge in a letter signed by William J. Bowen, president of the Bricklayers, Masons and Plasterers International union. President Bow en also expressed resentment at the comparison made between the wages offered bricklayers and those offered simultaneously for a junior astronomer in the naval observatory.

The wages in both cases are in-adequate, he said, though the scientist has steady work and a chance for advancement. The bricklayers were offered \$8.96 per diem by the mer's position pays \$35 per week. President Bowen points out that the requirements for the scientific position can be qualified for in a 4-year course at college, and declares that the bricklayers have to pass as much time in learning their trade.

The bricklayers feel sympathy for the underpaid scientists, he declared in the letter, but it is their own fault, because they have not organized. "Finally, the junior astro can't lay bricks," he said.

MEXICAN ARBITRATION A FARCE.

The fifth session of the general claims commission, created under the treaty of September 8, 1923, between the American and Mexican governments, began in Washington yesterday.

In view of the agitation, inspired by Mexican propaganda or by those who have no knowledge of the actual situation, that the wholesale confiscation of American property by the Mexican government and the plunder and murder of American citizens in Mexico should be submitted to arbitration, it will be well to survev the results of Mexican arbitration under the treaty of 1923.

In making the treaty of 1923 the American representatives, who included Secretary of State Hughes, were guided by the principles of good faith and fair dealings, which are the essentials of any arbitration. The Mexican representatives set out to obtain a treaty which would be true to the Mexican policy of promising everything, while inserting clauses which would enable Mexico to evade everything and to escape the very liability which the arbitration was designed to establish.

In the working out of these one-sided concentions two commissions were created, the eneral claims commission and the special claims commission, the former to hold its ses sions in Washington and the latter in the city

The special claims commission was to deal with claims for the murder of American citizens and the theft of their property by revolutionists and bandits, and the general claims ommission was to deal with the wrongs of the various Mexican governments and under both headings to cover the period from November 20, 1910, until May 31, 1920.

Only one session of the special claims com mission was held in the city of Mexico in 1926. This session dealt with the group of claims rising from the murder of unarmed and delenseless American citizens in the state of Chihuahua in 1916, and the cases of seventeen American claimants were dealt with as one in the Santa Isabella decision.

There was no dispute about the facts that the Americans were murdered in cold blood by Mexican outlaws under Villa, but Mexico capes liability on the technicality that Villa and his force were bandits, as distinguished rom legitimate followers of the honorable Mexican profession of revolutionists

When it suited the purposes of the Mexican factions of Carranza for propaganda in America. Villa was referred to as "Gen. Villa, commander of the revolutionary armies of the North.'

It was under this delicate distinction covered by paragraph 5 of article 3 of the special claims convention that Mexico escaped the liability for the murder of Amercans dealt with in the Santa Isabella decision. This decision was handed down by the Mexican commissioner and Dr. Octavio, of Brazil. who was the neutral member of the special

When this now famous decision was rendered by the Brazilian and Mexican commissioners on April 26, 1926, the American commissioner filed a dissenting opinion. In his view and in the view of the State Department the opinion of the Brazilian and Mexican commissioners amounted to a nullification of the convention

Notwithstanding the protest of the American representatives and the obvious bad faith case is closed, at least for the present.

Article III of the special claims convention

The claims which the commission shall examine and decide are those which arose during the revolutions and disturbed conditions which existed in Mexico covering the period from November 20, 1910, to May 31, 1920, inclusive, and were due

any act by the following forces:
(1) By forces of a government de jure (2) By revolutionary forces as a result

of the triumph of whose cause governments de facto or de jure have been established, or by revolutionary forces opposed to them.

(3) By forces arising from the disjunctional of the province warriened in the party of the factor of the factor warriened in the party of the factor of the factor warriened in the party of the factor of the fac

tion of the forces mentioned in the next preceding paragraph up to the time when the government de jure established itself as a result of a particular revolution. (4) By Federal forces that were dis-

banded, and
(5) By mutinies or mobs, or insurrectionary forces other than those referred to under subdivisions 2, 3 and 4 above, or by bandits, provided, in any case, it can be established that the appropriate authorities omitted to take reasonable measures to suppress insurrectionists, mobs or bandits, or treated them with lenity or were in default in other particulars.

The joker in the special claims convention th Mexico appears in the italicized lines. ugh the use of this joker Mexico can cape all liability for the hundreds of American lives lost and the hundreds of millions of dollars of American property de-

It was under this joker that the Santa Isabella decision was rendered, and when the fine

does not afford sufficient means of escane for Mexico, it will escape under the joker because for the greater part of the time involved, the various so-called "governments" of Mexico have not had control of the Mexican territory sufficiently to enable them to get telegrams to various parts of Mexico, much less "to take reasonable measures to suppress insurrections, mobs or bandits," or treat them with lenity.

They were not in position to suppress violations or to control Mexico or to treat at all with the forces of violence and plunder, even if they had been disposed to do so.

The Brazilian Commissioner Octavio, resigned his post in July, 1926, in consequence of diplomatic "illness." No session of the special commission has since been held and no session is likely to be held because all pro-ceedings under the special claims convention with Mexico are a mockery and farce.

Turning from the notorious special claims commission to the general claims commission the record of Mexico is only an exhibition of trickery, evasion and bad faith. The first session of the general claims commission was in August, 1924, when it did nothing but organize and adopt rules. The second session was in June, 1925, with Senor Carbajal y Rosas, acting agent.

The third session was in February, 1926. with Senor Benito Flores, agent, and Senor Carbajal y Rosas, counsel for the Mexican

Senor Flores resigned as agent in June 1926, and in the fourth session, October, 1926, Senor Carbajal y Rosas was the Mexican agent. He is still the Mexican agent in the fifth session, which began yesterday

The number of American cases filed by memorandum with the general claims commission is 2.427, of which only 20 have been so far acted upon:

The total amount of these 20 awards is \$1,896,801.27. of which 1 claim amounted to \$1.807.531.36.

In one of the cases of an American claimant against Mexico (docket No. 39), decided March 31, 1926, the question at issue was whether or not the acts of the government of President Huerta were binding upon Mexico.

In filing the American claim the American agent submitted as one of the proofs of the authority and right of the government of President Huerta to bind Mexico, a certificate issued on the 16th of February, 1914, by Senor Carbajal y Rosas himself, in which he declared:

I. the undersigned, a lawyer of the tribunals of the republic of Mexico and Minister of Mexico in London, giving my official opinion as representing my government and also my professional and judicial opinion, declare: dicial opinion, declare: .

In consequence the bonds referred to a articles four, six, seven, nine, ten, leven and seventeen of the contract referred to and also the provisional certificates which represent said bonds under the terms fixed in article seven, impose upon the Mexican government a legal obligation taken entirely in accordance with the laws of the country: said obligation being made by the officials upon whom the law confers the faculties necessary for entering into this kind of obligation, and consequently said obligation will always be recognized until its complete payment as having all of the values and the guarantees which have been stipulated in respect thereto, not only by the actual government but also by whatever other gov which may take its place under the constitutional regime of the republic

On February 18, 1926, the Mexican agent filed a motion to dismiss the American claim with respect to which this certificate had been used, contending that Mexico was not liable for the acts of the government of President Huerta because it was not a legal government. The Mexican motion to dismiss the claim referred to the legal opinion rendered by Senor Carbajal y Rosas as of no more importance than any other personal opinion.

Senor Carbajal v Rosas was at that momen the counsel for the Mexican agency, but twelve years before that time mis legal opinion containing the above quotations was accepted in good faith and acted upon by investors in the United States and England, in an amount embodying more than \$15,000,000, but when it comes to Mexico escaping liability, the legal and judicial opinion of its own representative and agent is repudiated with the same facility that it repudiates its bonds and general obligations. When Senor Carbajal y Rosas gave Mexican Minister of President Huerta's government in London. In 1914 he officially and judicially declared the legality of President fluerta's government and the validity of its acts as binding the Mexican nation. In 1926, as Mexican agent before the arbitration commission, he declares the Huerta government spurious.

The convention of 1923 between the United States and Mexico expires at the end of August, 1927, and this date will see the greater part of the whole of the American claims against Mexico either unheard or evaded by the Mexican government. The good faith which is essential to arbitration is lacking on the side of Mexico, and there can be no success in pursuing the course ordinarily adopted between civilized nations in dealing with Mexico.

To submit the land controversy to any arbitration with Mexico is to court a greater disaster to American interests than that which has already befallen them, and to prolong the farce of arbitration with Mexico is to play into the hands of the lawless regime in that

United States and the interests of Americans to let the convention of 1923 expire next August and pass into oblivion. Then, in 1928, when the next "constitutional" president of Mexico is seeking the recognition of the American government, it should only be accorded when Mexico has agreed to pay what it owes to American citizens and when its agreement is guaranteed to the satisfaction of the American

Without the recognition of the United States government no Mexican can rule Mexico for six months, and it is only through the necessity of this recognition that any satisfaction can be obtained from any Mexican government

cylinder motors, and is useless for any nurnos except speed. When throttled to its slowest it exceeds 35 miles per hour. When opened up it burns a gallon of gasoline every 40 seconds. and wears out its tires in four minutes.

The car is the largest, fastest, most expensive and least useful of any ever built. It is too big to be entered in ordinary races, nor can it be driven on an ordinary race track. For this reason it has been brought to the United States because at Daytona Beach a long straightaway is available. It takes three miles for the Mystery Z to attain its maximum speed, and another two miles to bring it to a stop.

There seems to be little doubt as to the great speed to be attained by this monster. Yet after the new records have been established, what good will have been accomplished? The car has been built at enormous expense merely to break records. Because of its freak design nothing can be learned regarding the behavior of automobile engines. Nor will the problems of carburization, tire design and construction, ignition, steering or lubrication be clarified by the performance of a 200-mile an hour automobile.

FLORIDA KILLS HORSE RACING:

The decision of the Florida supreme court ustaining the validity of State laws regarding horse racing deals a staggering blow to the prosperity of that State. The decision will force the closing of all race tracks and kennel clubs and will turn away tens of thousands of visitors who have been attracted to Florida largely because of the sport afforded by the splendid tracks at Jacksonville, Tampa, Miami, Pompano and elsewhere.

Florida is killing the goose that lays the golden eggs when it discourages horse racing. The pari-mutuel system, which the supreme court has found to be contrary to State law, is a fair and acceptable method of permitting spectators to lay wagers on their favorite steeds, and undoubtedly promotes the success of race meets as well as stimulating horse-

Florida is the natural playground of the Eastern part of the United States. A restrictive and unreasonable system of laws, like that which now kills horse racing, will mean the ruin of that State as a recreation center for Americans, who will go elsewhere on their vacations. The State will suffer enormous losses by the transfer of this tourist and recreation travel to other places where rational amusements are not barred.

GIRL SCOUTS CAMP.

With the coming of spring, attention is drawn to the need of city children for at least a fortnight of real outdoor life during the The Girl Scout Association of the District, which provides this each season for its young members, is now having difficulty in finding the right spot. An appeal has been made to public-minded men and women with nearby estates and farms, to lend the desired acre of camping ground from the end of June until the first of September.

This site must, of course, have a pure water supply, a stream or lake close at hand, be comfortably accessible to Washington by trolley or bus line, and mosquitoless, if possible.

The Girl Scout organization is a school in citizenship, where adolescence plays the foundation role. Upon this foundation the mature structure must either stand or fall, and girl scouting enables it to stand four square. teaches all the requirements of feminine citizenship, the care of the home, care of the body, and cleanliness and culture of the mind. This is done in comradeship, in lessons that seem play, and most of all in out-of-door delights where the summer camp plays so important a part, for two weeks of camp mean nore than several months of winter work and play in scouting. The stories told around the campfire, stories of sacrifice and devotion to country, the old-time songs, the wholesomeness that comes of hiking and nature studies and learning to know each other as only outof-door life together enables children to do. are all well worth encouraging in this age of jazz. Owners of country places who are willing to accommodate the Girl Scouts are requested to notify headquarters as soon as possible, so that preparation may be made for those outdoor weeks that will mean so much to future mothers in mind and body develor

New York's chamber of horrors is to be renovated. That State "art emporium" located in the executive chamber of the capitol at Albany. It is not quite so extensive or quite so horrible as "Statuary hall," in Washington, because the tributes to the statesmen of New York State are in the form of gen-uwine oil paintings and are not replicas in bronze and marble, such as were contributed by so many of the States to the junk that occupies so much space in what was once a hall of the House of Representatives.

Now the dust of decades has added greatly to the fearsomeness and at last even the employes appear to have revolted. The nictures might be characterized as the "dirty dozen," so much so in fact that the State authorities have decided to expend a \$1,000 in a general clean up. It will cost \$192 each to wash and dress George Washington and Gov. Clinton, while Lafayette and Seward are to be made presentable at \$160 each. The others, including Presidents Cleveland, Roosevelt and Van Buren, with a few unidentified governors, to be furbished up in a sort of job lot for the remaining \$280 of the appropriation.

Dispatches from Albany indicate that the renovations will include "washing faces, scrubbing necks, and dry cleaning the clothing" of

The alienation suit came to light when a motion to take the deposition of Mrs. Mary C. Waish, of New York, on the ground that she is too ill to appear in court, was denied by Supreme Court Justice Giennon. A like suit aiready is pending in Chicago.

In his complaint today the colonel charged his brother made love to his wife, Mrs. Annette Walsh Snyder Carrington, and acquired an improper influence over her. In support of the charge he attached a letter sald to have been written by Campbell Carrington to the colonel's wife and sent in an envelope addressed on a type-writer to Mrs. Walsh.

The letter, said to have been written in July, 1923, was addressed to "Darling," and told of being called to Texas because of the bringing in of an oil well. "You must not stop writing, as I have left envelopes with Ahman to have your letters forwarded in." it said. "I will write you from Texas in envelopes addressed on typewriter to your mother, if you will write and tell me it is all right to do so."

"I would give anything, darling, to have you in my arms and hold you real in stamps for postage.

"I would give anything, darling, to have you in my arms and hold you real tight." the letter continued. "Are you going to arrange in some way to see me when I get back, or are you satisfied to go on without seeing me? Love and a million kisses."

The letter was signed "C."
An affidavit also was attached in which a process server told of attempting to serve a subpena on Mrs. Walsh in the Carrington divorce action pending in Illinois. The affidavit said Warren Walsh, a son of Mrs. Walsh, testified by deposition that Campbell Carrington and other members of the family frequently discussed the domestic affairs of the colonel and considered them quite a joke.

affairs of the colonel and considered them quite a joke.

Neither of the brothers appeared when the felonious assault case, which Campbell Carrington is prosecuting against the colonel as a result of the caning, was called. The magistrate threatened to forfeit the colonel's \$1,000 bond, but the defendant arrived from Florida shortly after noon and the hearing was adjourned.

Tablet Here Proposed

"He enforced the law impartially. He defended it courageously. He proved incorruptible," is the legend selected for a tablet honoring Brig. Gen. Smedley D. Butler's service as safety director of Philadedphia, by the Law Enforcement league of that city. A tentative sketch was submitted yesterday to the commission of fine arts. Realization of the plan depends on approval of the commission and Secretary of the Navy Wilbur.

Under present plans the tablet would be of bronze. It was suggested it be placed in marine headquarters in the Navy bullding, with a bust of Gen.

The matter will be considered Wed-esday by the commission.

Frederick J. Rice was elected president of the Cosmopolitan club for the ensuing year at the Lee house yesterday. Lawrence Rubel was elected vice president, George Vierbuchen, treasurer, and Michael Schaeffer, secretary.

George Wyne and Paul Davis were elected members of the executive committee. Ernest E. Herrell, retiring president. Mr. Schaeffer and Philip Buettner were elected delegates to the annual convention this summer. Anton A. Auth and Michael Hesiter were elected alternates. Eugene Paravano was appointed sergeant at arms with Mr. Auth as assistant. Boosters' prizes were awarded Ferdinand Waldman and Walter Gawler.

Raccoon Goes to New

Home With Coolidge

Rebecca, a Tennessee raccoon sent here to delight the President's palate, instead is occupying a warm place in his heart. The President never did like the idea of eating the animal and only for the fact that there was plenty of room for her on the White House grounds Rebecca would have ended in the zoo.

New York, Mar. 10 (By A. P.).—The marriage of Miss Rosalle ("General") Gardiner Jones, of Cold Spring Harbor, L. I., and United States Senator Clarence C. Dill, Washington, will take place March 15 at St. John's Episcopal church at Cold Spring Harbor, it was announced today.

The Lucy Stone league, an organization of married women who retain their maiden names, will gain a recruit when Miss Jones becomes the bride of Senator Dill.

"I refuse to become an echo to my husband," she said, explaining that, while she would be Mrs. Dill socially, she would continue to be Miss Jones interests.

These interests range from fighting for women's rights to conducting a chicken farm, repairing automobiles, collecting book plates, advancing peace movements and managing a \$5,000,000 estate left to her and two brothers by their father.

Mr. Lenroot will go to his home at Superior for an indefinite stay before returning to Washington to resume law practice.

A Formula for Cheerfulness

"All work," says Carlyle (and he didn't make any exceptions), "is noble." Carlyle didn't mean that just because we work we deserve to have a halo, or to be put on a pedestal, but he did mean that a man who does his job, and does it just as well as he is humanly able, can be just as proud of what he does as though he were a prime

HOW TO KEEP WELL

MALE WEAKER SEX, THIS DOCTOR SAYS.

R. PAUL POPENOE thinks the male is the weaker sex. No part of his interesting book on the "Problems of Reproduction" is more intiguing than those chapters in which he sets forth the arguments that prove the interiority of man, the male, blookingically.

To begin with, the male has the advantage at least in point of numbers. The proportion of bables born alive is about 105 males to 100 females. Where the mothers are quite young the disproportion is greater still. So it is among first born. It is particularly greater during war times and immediately thereafter. But going back of the birth period we find the disproportion is greater still. The sex of the child is determined at the moment of conception.

The evidence by which physicians can decide whether a child is a boy or a gril by an anatomical examination is not discernible until the baby is about three months on its way toward birth. But that does not change the fact that the moment of conception, and close microscopic examination discloses the decision. Such examination show that the moment of such examination show that the moment of conception, and close microscopic examination discloses the decision. Such examinations show that the male is the dath rate so high as during the adath rate so high as during these months before birth.

The female continues to reap her advantage as life goes on. Among still births there are more boys than girls. Among bables who die during birth boys predominate. Likewise among those who die during the first month of life periods. When the first mond the first month of life possible who die during the first when the firs

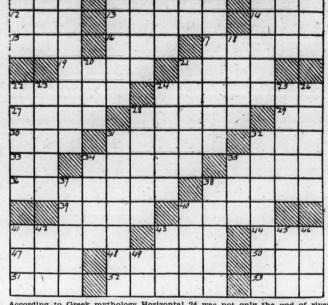

scopic examination discloses the deci-sion. Such examinations show that the potential males enormously outnumber only 100 pounds. I am 21 years of age.

scientifically how nature may be loading the dice to favor the male. But once conception has taken place, the dice are loaded for the female. Just how nature may be loading those dice the other way he also tells.

Conduct and Common Sense

-By ANNE SINGLETON-

EAR Miss Singleton: After accepting an invitation to, and attending, a luncheon, does etiquette demand that the guest call upon his hostess within a prescribed time thereafter, and what is the usual procedure?

M. G. E. H. Answer—A visit is the traditional manner of saying "Thank you," for any invitation, whether you are able to accept it or not. It is usual to pay such a visit within a week. Very polite, old-fashioned people sometimes leave their cards a day or so after the event. But, if for any reason, your visit were designed attention to conventional calls. But

a visit within a week. Very polite, old-fashioned people sometimes leave their cards a day or so after the event. But, if for any reason, your visit were delayed, even for two weeks, it would not be unpardonable. As soon as you conveniently can, however, you go to your hostess's house. If you wish to make it a formal call, go in the afternoon hours between 3 and 5. If you are a married woman visiting a married woman, you leave two of your (Copyright, 1927, by Vogue.)

What to Wear With an Evening Gown

Do you remember that last week I said that "keep busy" is one of the maxims to be followed by those who would remain indefinitely youthful? Inactivity is truly stagnation, death. Now, in addition to our regular occupations, whatever they are, we must have exercise. Physical exercise, regularly followed each day, is indispensable if you want to build a lovely figure.

For example, a \$5 powder may have a fineness and "body" that is the result of a special and complicated process. Costly oils and perfumes are probably contained in it. However, a standard powder at \$1 may be every bit as pure, but 'simply not so luxurious. The manufacturers of good repute do not put injurious ingredients into their products, whatever the price may be.

Fighting Families.

EAR Miss MacDonald—I am writging to you for advice to give to a sister of mine. I am 26 years old, married and the oldest of a very large family. I had a veritable hell when at home, and the day I married was the happiest day of my life. That is why I understand the actions of this sister and you can be assured that I will give you both sides of the story, unbiased in any way. Jane is her name, 22 years old and a typical flapper—as frank as day—saving and a big heart. Nothing sneaky about her. Just a lover of good clothes, good times, tidy, orderly, neat. Marle, 24 years old—just opposite. Unforgiving (she hasn't spoken to my mather for two years over some fight). Marle rules my mother and the whole house; tells mother what to do and not to do. Right and Wrong Above the Table

URING a recent shopping tour, Vogue heard a woman say. "I play sat a very chic woman, dressed in navybridge a great deal, and I want a dress that will look well above the table." The saleswoman showed her a number of very nice frocks, but they were all "too piain." Finally, behind a rack of old dresses, she found the garment at the left. (The little sketch at the top left shows the full-length view.) It a was rose color, and there were festoons of gold beads applied in a wedge formation. Then, before Vogue's fascinated eyes, she bought an enormous black satin hat trimmed with gold beads. Certainly, she would show an overwhelming amount of gold beads "above the table."

The next day Vogue happened to see her in a smart restaurant, dressed in her new finery. (She had added a spiky

CMICHELANGELO

1508 Michelangelo undertook the Herculean task of painting the ceiling of the Sistine Chapel. He put up his scaffolds, seventy feet high, and employed the best fresco artists in Italy to fill in the color. But they could not grasp the wrath he discharged them all and obliterated all they had done. And for four years he worked on the task alone.

Often, for days, he would not leave the building. He drew up food by a string and slept on the scaffolding without changing his clothes. He gazed straight up at the ceiling-painting.

At the completion of task Michelangelo was thirty-nine years old. For a time he thought that he had done his last work. "My life is there on the ceiling of the Chapel of Sixtus," he wrote. But fifty fruitful years of art were yet before him

DANVILLE RESUMES TOBACCO LEADERSHIP

Again First Among "Old-Belt" Markets—Farmers'-Receipts Increase.

Special to The Washington Post.

Danville, Va., March 10.—The Danville tobacco market closed its selling season today with a sales totalling 50,592,300 pounds sold for \$12,450,542.18, or an average price of \$24.62 per hundred pounds. The sum distributed in Danville among farmers since October 5th was more than double that paid in the previous season when 38,718,989 pounds was sold for \$6,087,916.91 an average of \$15,72.

This season's record puts Danville back as leader among the old belt markets and second largest market in the bright belt with Wilson, N. C., leading Danville. The season just ended has been the first in several years to give the growers a good margin of profit. The great bulk of the crop sold for 25 cents a pound.

Lynchburg, Va., March 10 (By A. P.). Tobacco sales on the local market today totaled. pecial to The Washington Post.

Tobacco sales on the local market to-day totaled 100,300 pounds at an average price of \$8.10 per hundred.

WALL STREET **NEWS BRIEFS**

New York, March 10 (By A. P.).— Singer Manufacturing Co. declared an extra dividend of \$3.50 a share in ad-dition to the regular quarterly of \$2.50, both payable March 31 to holders of record March 10. Efforts have been announced to bring about a merger of Briggs Manufacturing Co. and the Murray Body Corporation of America. Owners of a majority of stock of the Murray Corporation have been released from options they had given on their stock.

Standard Oil Co. of New York recently bought three tank steamships, two from Sun Oil Co. and one from Atlantic, Gulf & West Indies Steamship Line, each of about 10,000 tons carrying capacity, at a total cost reported to be \$2,500,000.

No plan has yet been presented to directors of National Fuel Gas Co. with regard to declaration of a stock divi-dend or a plan for recapitalization of the company, said N. J. Judge, presi-dent, concerning Wall street reports of a pending 20 per cent stock dividend and four-for-one split-up.

Walter N. Rosenau, of Philadelphia, has bought the New York Stock Ex-change membership of Joseph J. Man-ning for \$182,000, unchanged from the

The forthcoming report of Vacuum Oil for 1926 is expected to show an un-usually favorable balance sheet. Net may be more than \$10 a share, which would be a new record, the previous best earnings having been \$9.73 a share in 1925. The company will show no funded debt for the first time since 1921.

Cash dividend payments by companies in the old Standard Oll group for the first quarter this year are calculated in excess of \$55,300,000, compared with \$40,580,317 in the first quarter of \$40,580,317 in the first quarter of \$55,670,000. ter of 1926. The record of \$55,652,423 in the first quarter of 1913 included in the first quarter of 1915 the than a special disbursement of more than \$39,000,000 by Standard Oil of New Jersey of loans from forsey on repayments of loans from for mer subsidiaries.

The Southern Pacific has ordered 1,000 gondola cars from Standard Steel Car Co.

Washington Oil Co. declared a dividend of \$2 a share, payable March 21 to stock of record March 14. A dividend of \$4 was paid December 20.

The Standard Oil Co. of New York has reduced the price of kerosene 1 cent a gallon in New York and New England.

Unfilled orders for standard cotto textiles increased to a record high level of 451,788,000 yards at the end of February, the Association of Cotton Textile Merchants of New York reports. A decline of 15 per cent in stocks on hand also reflected the large volume of business transacted during the mont Stocks were lower at the end of Febru ary than in many months. Harold J. Consolidated Laundries Corporation reports net income of \$1,055,290 for 1926, equal to \$2.92 a share.

Structural steel orders placed in the last week aggregated 16.000 tons, lowest in some time, and compared with 75,000 tons the week before. Pending inquiries total 23,000 tons.

CHICAGO GRAIN.

Chicago, March 10 (By A. P.)—Increased selling on the part of houses with connections Northwest carried wheat sharply downgrade today at the last. Crop news was favorable and buyers relatively scarce. Wheat closed weak 1c to 1½c net lower, corn ½c to ½c down; oats ½c to 1½c off and provisions varying from 7c decline to 10c advance.

ports from winter wheat territory southwest.

Lowest prices of the day in wheat came during the last half hour, much of the selling then resulting from standing orders to stop losses at various fixed limits. The late break from the early high point carried prices down 2½ a bushel in some cases. Meanwhile, however, the cash wheat trading basis was unchanged to le higher for hard winter and steady for red winter and spring. Gorn and coats went lower with wheat Resistance to selling pressure was evi-dent in corn, but weakness of oats was pronounced. Receipts, both of corn

Meets Hoppe Today; Hagenlacher Wins From 'Young Jake.'

Welker Cochran, California cueist, holds first place among balkline players competing for the world's title at the Arcadia by virtue of a crushing defeat administered to Edouard Horemans, former world's champion, by the score of 400 to 28.

Cochran averaged 80 points per inning for five imnings for the second time in the tournament, and turned in a sparkling run of 233 which aided greatly in his brilliant victory over the Belgian cueist.

In the afternoon match yesterday, Erich Hagenlacher vanquished Jake Schaefer 400 to 156. The defeat was the first suffered by Schaefer in the tournament.

tournament.

Today's games are Hagenlacher vs. Hoppe at 1 o'clock Schaefer vs. Horemans at 3 o'clock, and Cochran vs. Hoppe at 8:15. One ticket will admit to both the afternoon games, W. V. Thompson, secretary of the National Billiard association announced.

Following today's schedule but one game remains to be played, that of Cochran vs. Schaefer. If Cochran loses today and Schaefer emerges successfully, the game to-morrow will be for the champion-ship.

Hagenlacher and Horemans appear to be out of it, with two losses apiece, and their averages will determine which will win second prize money. A play-off may be necessary tomorrow to decide first place in case Schaefer wins from Cochran and retains a clean slate himself.

Cochran now has an average of 64 points per inning for the 25 innings he has played. This is eight points above the world's tournament record, and to earn this mark Cochran has exhibited a brand of play unapproached by any of the other contestants. He also holds the tournament record for high run with 299.

run with 299.

His play last night was the same as he showed in defeating Hagenlacher, Grange and Matsuyama in earlier contests, although in last night's match he displayed a greater variety of skill. Every shot known to the green cloth

TOM ARMOUR FOOT BONE BROKEN, JOHNSON ON WINNING TEAM

With Cruickshank He Beats Hutchison and Hagen 9 Up.

M'AMI, Fla., March 10 (By A. P.).

Bobby Cruickshank and Tommy Armour today won the 36-hole play-off in the international four-ball championship from Walter Hagen and Jock Hutchison, 9 up and 8 to play.

Displaying by far the most brilliant teamwork of the tournament, in which 32 professionals participated, the pair took the lead early in the morning and were never in danger of being headed.

Today's play resulted when Cruickshank and Armour missed putts of 3 and 5 feet, respectively, to allow their opponents to square the 36-hole finals play yesterday.

Hagen's putting, on the other hand, was far below his standard of yesterday when he was sinking long ones from difficult angles. Many of his tee shots, too, found the rough today. Hutchison also found his putts missing the cups with disappointing frequency. Armour's birdies on the third, fourth and sixth greens and Cruickshank's par four on the eighth put Hagen and Hutchison four down at the first turn in the morning round. Armour chalked up another pair of holes and Cruickshank a third on the second nine, putting them seven up as the afternoon round got under way.

St. Louis, March 10 (By A. P.).—
Tommy Thevenow, star shortstop of the champion St. Louis Cardinals, declared today he would refuse to sign a contract for more than one year at the terms offered. The management proposed a three-year contract. Thevenow's statement was made to a staff correspondent of the St. Louis Post-Dispatch at the player's home at Madison, Ind.
Thevenow, who was considered the best fielding shortstop in the National league last year, said the club had offered him \$5,500 for the first year, \$6,500 for the second and \$7,500 for the third, with a bonus of \$500 for signing. He said he thought the bonus was intended to meet his demand for \$6,000 for the first year, but he felt that after another year's experience he would be worth more than the amounts offered.

same as the others on the grapefruit league schedule, players of both teams seem to take them more seriously than any of the others.

In the New York camp the slogan is "Beat Washington," while the Nats' main objective seems to be to whittle down the Giants. These teams are natural rivals, with their grudge starting several years back when players from the two teams fought so spiritedly, both on and off the field, that series between the two clubs were abandoned. They were resumed after the Harrismen beat the McGraw cohorts in the 1924 world's series.

In this title set, the Gothamites claimed that the Capital Cityans won on luck alone and the 1925 spring set was supposed to prove this fact. The Giants broke away from the barrier fast and jumped into an early lead, but, it will be remembered, Harris' team sprinted down the home stretch and the series ended in a 6-all draw, one game having been rained out.

Last spring the New Yorkers came out on top and Bucky and his charges are out for revenge this season. The first pair of 1927 meetines will be played at Sarasota tomorrow and Saturday. Two-more will be staged at Tampa on March 18 and 19.

RADENTON, Fla., March 10.—The Phils showed their lack of practice in their opening game with the Washington club this afternoon and virtually handed the Nationals a 6-to-3 verdict. McInnis has had his flyhawks and infielders here but three days and his pitchers have been out only a week, the result being that the Quakers were badly off their game. Six errors were charged against them and most of them were costly and meant Washington runs.

Despite the Phils' crudeness, they made the Nationals hustle. Three times they took the lead and three times the Nats overtook them, forging to the front with three runs in the ninth to win the contest.

Harris used his two bables—Bob Burke and Dick Coffman and Garland Braxton on the hill and all three performed well, McInnis called on "Lefty Ed" Taber for five frames and then gave Oran O'Neal and Ed Baecht short shifts.

Denny Sothern, former Washington sandlotter, started in right field for the Phillies and turned in probably the best catch of the game, on a long foul well past the line off Judge's bat. Speaker, Goslin and Bluege obtained two hits each for the Nats, as did Sand and Nixon of the aliens.

STIRRUP CUP WINS IN STRETCH RUN AT NEW ORLEANS

Near End

Lancer Takes Sixth With Corposant Unplaced.

Billie Burke Overtakes Field of Maidens in Third Race.

Jafferson Park, New Orleans, March 10—Stirrup Cup, carrying 118 pounds, landed the Greentree stable's colors triumphant in the Able's Irish Rose handicap, feature of the program this afternoon at Jefferson Park. Coming from behind under a rousing ride by George Ellis, Stirrup Cup overhauled J. L. Knight's Ragtime and won by a length going away, with C. H. Knebelkamps' Georgia Rose third. It was a claiming handicap and found a well-matched field of the best platers here measuring strides. The fleet Ragtime stepped off to a good lead at once, with Stirrup Cup and Alborak in close attendance. At the turn into the stretch Stirrup Cup left Ragtime behind and began to chop down the gap of two lengths Ragtime had on him. By the time they were straightened out Stirrup Cup was closing in fast.

Ragtime gamely held on under energetic riding, but his impost of 133 pounds began to sit heavy on him inside the last furlong, and then passed into a safe lead. from a slow beginning and was third. Stirrup Cup was a betting favorite, paying \$6.60 to win. He was one of the few successful choices of the day.

It was ladies' day at Jefferson Park, and several thousand women helped make up one of the largest crowds of the present season. There were several other attractive races on the card, including the sixth, which was at a mile and a sixteenth and which was wan by J. Holmes' gelding Lancer, with D. Froggate up. Kanduit was second and Drone third, with Corposant, the favorite, unplaced. Lancer paid \$8.80 for a \$3 ticket.

Foreland, owned by M. A. Nash, showed gameness to win the mile and 70 yard race, which brought a capacity field of cheap platers to the post in the first race. Foreland fought for the lead all the way, and outlasted Louisville and Nashville to win by half a length. Flank Attack was third, three lengths farther back.

Belpre, which was heavily played, won the second race pretty much as his rider pleased. He took command efter a half mile and drew out to win in a canter over Slate with Four Sixty third.

Billie Burke, a filly from the Idle Hour Farm stable, won the third race, which brought out a small band of 3-year-old maidens over a mile and "0 yard route. Bob Rogers flattered his supporters by stealing a tremendous lead, but began to weaken in the stretch, and Jockey Goldle Johnson sent Billie Burke by him in the last furlong. Captain Applejack was third, 6 lengths back of Bob Rogers.

L. Crain's bay filly, Patricia Narian, y Sir John Johnson—Love Story, won he fourth race by a neck from Break Morn, which finished second five ingths ahead of Lady Marie. The inner paid \$7.20 for a \$2 ticket.

joining betting will not be handed down for 30 days in accordance with the ruling of the court." Members of the court, however, said there was no such clause in the decision and that if the Pom-pano officials continued the bet-ting system they "would find themselves in an unpleasant pre-dicament."

Beaten in their court attempts to continue the certificate system, promoters began the circulation of petitions asking the State legislature to legalize the certificate system, or the pari-mutuels, and authorize a racing commission similar to that in Kentucky and other States to control operation of the tracks.

The South Miami Kennel club and the Miami Kennel club were closed last night. Directors of the St. Petersburg Kennel club announced there would be no more racing unless the legislature legalized the pari-mutuel system.

was trailing, 2 to 1. The Phils were fortunate in coining their first marker on only one hit, but it was a real one, being a triple to right center by Heinie Sand, first up. Heinie then registered on an infield out.

The Harrismen knotted the count in the second, but it took four hits for them to do it. With one down, Harris and Bluege came through with successive singles, while Berger inserted a scratch safety, packing the bases. When Burke fanned, in pitcher-like fashion, it looked as though these bingles would be wasted, but Myer bounced one off Sand's shins and scored one mate. With the sacks still fully peopled, Rice blew a chance to do something worth while by popping to Bothern.

Round 3 was good for a run when the Phils obtained three of their four hits off Burke. Sand, Attreau and Nison came through with safe-ties after two had been retired.

Coffman retired McInnis' men in order in the fourth, and then the Nationals got busy and tied the score. With two out, Speaker doubled down the first-base line. West replaced the Grey Eagle on the sacks and later afield, and scored on Goslin's one-base liner over second. In the home half of this fifth, Coffman walked two, but both were left. Those Who Count Club Out

of this fifth, Coffman walked two, but both were left.

O'Neal faced the Nats in the sixth and retired them in order. Then the Phils obtained their first hits off Coffman. With one dead, Spaulding, up for Sothern, singled, and Friberg scratched one past Bluege. Thompson lined to Goslin, but Jonnard, hitting for Wilson, singled, scoring Spaulding. The seventh, often called lucky, was just that for the Harrismen, for they knotted the string without the necessity of a hit. Two errors, both by Thompson, and a walk filled the sacks, while another free trip forced Tate over with a marker.

In the home half the Phils benefited from an error by Bluege and a single by Nixon, but Braxton, who had relieved Coffman, then settled down and pitched himself out of the hole.

The fans dozed for an inning and then suddenly awoke when a third error by Thompson gave Rice life, and Baecht, who had taken the hill in the preceding frame, balked. West's Texas leaguer sent Sam to third, and its twin, off Goslin's bat, scored him Judge servificed the pair slower. and its twin, off Goslin's bat, scored him. Judge sacrificed the pair along, and it looked as though the frame had ended when Harriss fanned and Reeves reled to Attreau, but Baecht, covering first, dropped the toss, however, and West counted, Goslin following him over when Thompson booted another. The Phils went out in order in their half of the ninth.

2 Handicap Matches For District Gunners

Tomorrow promises to be a busy day at the Bennings range of the Washington Gun club with three separate matches carded for the local marksmen in preparation for the coming team shoot with Baltimore on March 19.

Two handicap matches are scheduled, the first being for 50 birds with the prize being two legs on a three-month trophy. The handicaps of the shooters are reckoned on a sliding scale, a win moving the man back a yard.

The other handicap event is for a new trophy, a silver cup, which will be up in competition all season. The handicaps in this event are to be permanent, yardage being based on last year's averages of the shooters.

The program is completed with the customary club singles shooting from

Tomorrow night's schedule will cature a chash between two of the cam's which are in the spotlight in he race for the District champion-hip. This battle will bring together he Warwick Collegians and the W. I. West Co. tossers. Both teams old decisions over the Stantons, onquerors of the Anacostia Eagles.

It is fair to say that the best team for its size lost in the Aztecy St. Faul's game. What they lacked in heft, the Saints made up for in ability, and they slid from the tournament only after giving a brilliant exhibition of passing and aghting spirit.

The Aztecs had all the better of the first quarter and went into the second period the possessors of a 6 to 0 lead. The Saints soon found themselves, however, and had worked their way to a 9 to 8 advantage at the conclusion of

to a advantage at the conclusion of the half.

Dougherty's abooting put the Aztecs in front again with the resumption of play, and they stayed there by a few points for the remainder of the game. CONTESTS

Boxing at New Haven to Feature Program Tomorrow.

ANNAPOLIS, Md., March 10.—Seven contests at home and one away, make up the program of athletic events for the Annapolis midshipmen Saturday.

The chief event, boxing with Yale, will be staged at New Haven, and "Spike" Webb's pupils, who are traveling through their eighth assaon without meeting a reverse in a dual competition, are expecting a hard battle with the Elis. The Buildogs have, in fact, come to be the middles stiffest rival in the ring game in recent years, and is the only team that came within range of trailing the navy colors.

That was last season when each team won three bouts. Except in the middleweight division, the navy team this year is perhaps the strongest in the history of the sport here. The middy scrappers will leave for New Haven to-morrow.

SPIRIT SHOWN Bright Star IN TECH'S DRILLS

Coach Glenn Working Baseball Squad at Eastern Field.

ALTROUGH Tech High school has no letter men from last year's baseball team, much enthusiasm has been shown for the past three weeks as 70 baseball candidates have been working out daily under the "fron" hand of Coach Glean.

During the first two weeks the players confined themselves to working out in the back yard of the school, but recently the Bastern High diamond has been the scene of practice every afternoon. The practice sessions have been confined mostly to hitting and fly-chasing while the pitchers have been lob-

shortstops.

The outfield candidates are Gotthardt, Heles, Laton, Drissel, Dunnington and Scodeld.

Manager Goergens with the aid of
his two assistants, Mendell and Fry, has
practically completed a heavy schedule,
but no home games are listed, due to
the fact they have no home field, but
the Washington barracks will be available for them to use after April 1
and prior to that time they will work
out on the Central and Eastern diamonds.

Devitt Plays Tonight In St. John's Tourney

Annapolis, Md., March 10.—Devitt Prep's backetball team of Washington makes its debut in the St. John's col-lege tournament tonight, meeting the Tome School five at 7:30 o'clock. Alex-endria High is not scheduled.

RICKARD TO RELIEVE **DEMPSEY OF WORRIES**

Jack Sharkey and Jim Maloney, booked to meet May 19 at the Yankee stadium in one of the "semifinats," are rated close to Dempsey, whose first opponent in June is expected to be picked from these four, Paulino, Tom Heeney, Johnny Risko and Jack Delaney.

The historic Basque country, along the Franco-Spanish border, is supplying no little share of personality and color to the current international aports drama. There is Paulio, the Basque woodchopper from the Spanish side of the Pyranees, and Jean Borotra, the "Bounding Basque" of France, here in an attempt to lift the national indoor tennis title again.

Jean's chances promise to be particularly good in the absence of "Big Bill" Tilden, the American ace, and Borotra's countryman Rene Lacoste, who won the championship last year. Borotra lifted the indoor crown in 1925 so that he hopes to make it three straight for the tricolor.

Women fight fans have claimed their places at the ringside nowadays to such an extent that—as in the case of the Maloney-Delaney fight recently—they nearly outnumber the men.

But it wasn't always so. Mrs. "Bat"
Masterson, widow of the former sports
writer and Marshal of Dodge City.
Neb., recalls that her first attempt to
go to a fight, 36 years ago in New Orelans, resulted in her being arrested
and jailed.
"It was the fight between Bob
Fitssimmons and the original Jack
Dempsey, the 'nonpareli' in 1891," she
recalls. "I remember well how they
rigged me out in a jockey's coetume
but a wisp of my hair betrayed me before I got to my seat. I was hustled
out and kept in jail for a day."

Speaker and many others were picked up for little or nothing and joined the spring training squads unheralded and unsung, while minor league stars who were bought for big prices flivered.

Many a big league manager has let a star of first magnitude get away from him in the spring by carelessness. Stallings almost let Maranville go on account of his small stature when he first reported. Sometimes the very first recruit turned loose in the spring costs a manager his job later on, through his lack of foresight or luck in judging

his ability.

eases quickly when you apply a lit-tle Musterole. It penetrates to the sore spot with a gentle tingle, loos-ens the congestion and draws out the soreness and pain and won't blister like the old-fashioned mus-

tard plaster.

Musterole is a clean, white ointment made with oil of mustard. Brings quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheuma-tism, lumbago, pains and aches of the back of joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

U. S. TREASURY BONDS AGAIN LEAD IN UPSWING

Second Liberty 4 1-4's Heavily Bought-High Grade

Rail Issues Strong.

FOREIGN GROUP IS STEADY

New York, March 10 (By the Assoclated Precs).-While rapid accumulation of United States government issues continued in today's bond market, the demand spread out to include high-grade securities in practically every field. Buoyancy of prices indicated that buyers are reacting favorably to the Treasury Department's new financing, with its implied belief, in a continuance of easy money conditions. The ready and heavy oversubscription of the government short-term obligations gave evidence that investors have accepted the reduced interest rates as a reliable barometer of credit conditions. continued in today's bond mar-

as a reliable barometer of credit conditions.

Treasury 44%, which have been leading the advance of government securities, are again the most active in the list today, moving up once more to a new high record price. The Second Liberty 44% were accumulated in a large amount, but within a very narrow range of prices.

Strength of high-grade railway mort-gages was an outstanding feature of the general list, the combined average of ten issues closing at the highest level of the year, and carrying the combined average of 40 leading issues of all divisions into new high ground. Accumulation of bonds of some of the oil companies, presumably due to anticipated dividend actions, led the activity in the industrial list. General Asphalt 6s and Barnsdall 6s were centers of attention. A few soft spots were attributed to profit taking. Granoy 7s were particularly susceptible.

The foreign group was virtually steady, with buying centered chiefly in Flat 7s and French government issues.

the State Department in a veritable daze. The personnel board of the department, as constituted, will soon leave for its collective posts in all parts of the world. Frederick Dolbears, diplomatic member of the board—and the only one whose destination has been uncertain—is to go to Berne, Mr. Hugh Wilson will become Minister to Switzerland.

Switzerland.

Hence, another board must be called upon to unravel the skein of affairs, and just what the outcome of the whole controversy will be no one will predict. Some declare the department is entirely within its rights in all it has done. Others hold it is as entirely wrong. Still others shrug allently and roll their eyes. An able diplomat remarked on hearing of Mr. Dennis' charges, if the present trouble has proved anything at all it is that "there is something rotten in the State of Denmark."

ROXY TO ENTERTAIN

Party of Ten From Walter Reed Hospital Go to New

A detachment of ten convalescent patients, wounded overseas, but very happy, will leave Washington this afternoon as the lucky ones to represent Walter Reed hospital as the personal gueste of Roxy at the opening of Roxy's new theater in New York tonight. Miss Margaret H. Lower, director of the Walter Reed Red Cross, will be in charge of the little force, which will be personally convoyed by Capt. C. E. McCullough, assistant general passenger agent of the Pennsylvania railroad, who as a rule concerns himself with nothing less than the President's train but who will accompany the party to see that they are made as comfortable as possible.

No Grade Crossing

Work Seen This Year

No work on elimination of grade crossings will be possible until 1928, it was announced at the District building yesterday, notwithstanding that two bills were passed by the session of Congress recently ended, providing for abolition of four crossings. The reason for delay is that no funds were appropriated to do the work.—In the first deficiency bill to be presented to the Seventieth Congress, which meets in December, will contain an item for wiping out the Michigan avenue grade crossing across the tracks of the Metropolitan branch of the B & O. railway.

Col. Herbert Was Willing

At the prohibition unit, Col. John P. J. Herbert manifested a willingness to reveal the name on the permit under which the liquor is said to have been

which the liquor is said to have been moving. Then a subordinate talked with him quietly, and the sanctity of liquor permits and their conndential nature was emphasized. The relation between the prohibition unit and the liquor permittee, it was said, is as confidential as that between a physician and his patient, not to mention the relationship between lawyer and client.

But the public can rest assured, it was said, that ahould it develop that the liquor was not moving under a permit the prohibition unit will certainly prosecute. Asked then whether the unit would definitely say that the whisky was moving under a permit or not, there was no answer forthcoming.

Mr. Hall was asked about the possibility of no permit being involved. He said when the police are through with the case "we will make a statement."
